CONNECTING RAILWAYS

Brokerage Event "Connecting Railways"

The Connecting Railways event is organised by the Enterprise Europe Network, the gateway to competitiveness and innovation. The network gives access to all the information needed to develop a business and find the right business partners.

Representatives from companies, universities and research institutes offering or requesting innovative solutions, investigating new collaborations and searching for adequate project partners will get a great opportunity to discuss their ideas face-to-face.

The bilateral meetings with international experts of interest will pre-arranged to the InnoTrans.

Benefits for the participants

Your opportunity for active participation in shaping the mobility of tomorrow:

- The network offers a "one-stop shop" to meet all the information needs of SMEs and companies in Europe.
- Make use of the possibility to exchange experiences with companies and partners from all over Europe.
- Inform yourself on possibilities for international and regional funding possibilities for R&D projects

Products & Services

- **Railway Technology:** Rail vehicles for passenger & freight transport / sub-assemblies and components (drives, gearings, couplings, brakes, etc.) / vehicle maintenance
- **Interiors:** Interior fittings
- **Infrastructure:** Infrastructure / route technology
- **Public Transport:** Local and regional buses / fixed facilities / passenger information systems / fare management information technologies / traffic management / freight traffic logistics
- **Services:** Consulting / financing / passenger and freight transport firms / associations, science and research
- **Tunnel Construction:** Construction machinery, components and accessories / communications and safety engineering / ventilation systems / energy supply systems and illumination / interior finishing / maintenance / construction products and materials / services / consulting
- **ICT:** Control & communication systems / data processing / system integration / RFID / security

How to participate?

Each participant has to register by providing a technology profile describing his company and technological offers or needs, which will be published as precise data on the online catalogue.

This catalogue is continuously updated according to the submitted profiles and represents the basis for selecting partners for discussion and for organising face-to-face appointments during the event.

Registration

Access for online registration:
www.fav.de/innotrans

Deadlines

Registration: 12th September 2008
Submission profiles: 12th September 2008
Meeting request: 18th September 2008

Costs

60 € plus 19% VAT
(includes entrance fee for InnoTrans 2008)
